

## **Level 1**

**Ants work hard at their many jobs. One job is the queen ant. The queen ant is the head of the colony. Another job is the scout ant. The scout ant hunts for food and leaves scent trails for other ants to find the food. The last job is the soldier ant. The soldier has an enormous head that they use to block the entrance to the nest. Ants have so many different jobs that all help the colony to survive.**

## **Level 2**

**The different jobs ants do are laying eggs, getting food, and protecting the nest. The queen ant lays eggs. She is the only one who can lay eggs and is head of the colony. The scout ant hunts for food. This ant can leave a scent trail for other ants to find the food. The last job is the soldier ant who has an enormous head that they use to block the entrance to the nest. They keep out invaders. Ants have so many different jobs. They need for everyone in the colony to do their jobs if the colony is to survive.**
